

HEART LAB

EXERCISES 5, 6, 7 & 8

Dr. Lisa Brinn

Cardiac Blood Vessels Terminology List

- Anterior interventricular artery
- Circumflex artery
- Coronary sinus
- Great cardiac vein
- Left coronary artery
- Middle cardiac vein
- Posterior interventricular artery
- Right coronary artery
- Small cardiac vein

Major Blood Vessels Terminology List

- Aortic arch
- Ascending aorta
- Inferior vena cava
- Pulmonary arteries
- Pulmonary trunk
- Pulmonary veins
- Superior vena cava

Other terms:

- Carbon dioxide rich blood
- Lungs

Heart Structures Terminology List

(you may choose just one answer when there are multiple acceptable terms)

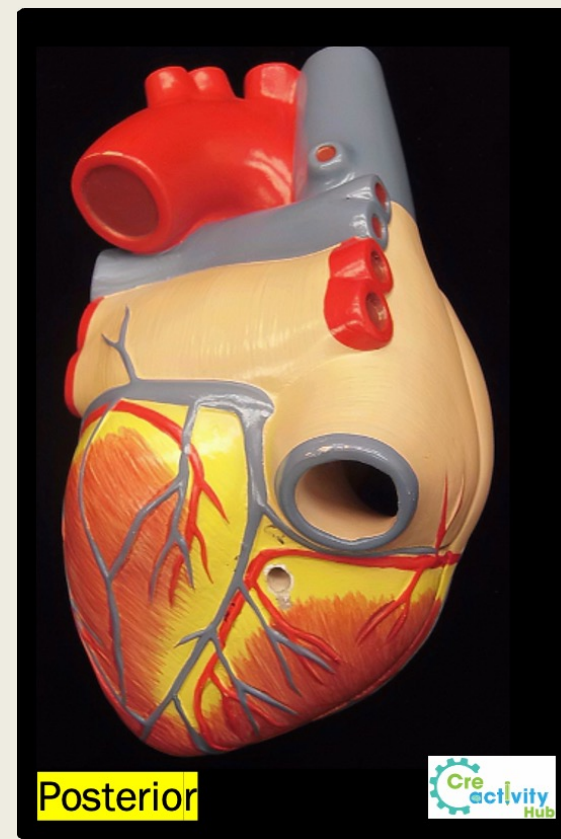

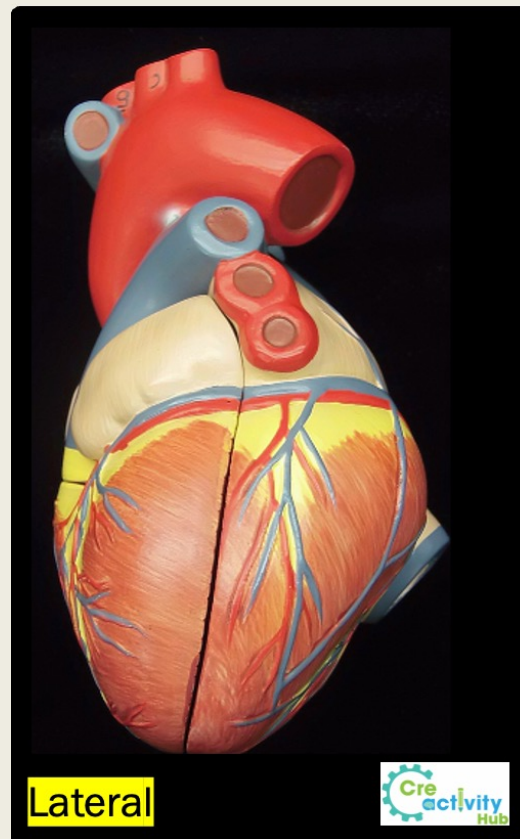

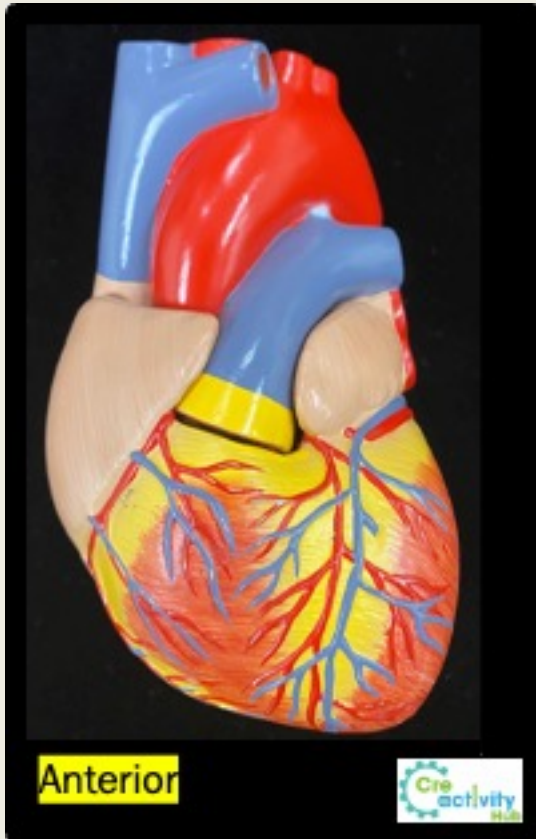

- Aortic valve or aortic semilunar valve
- Chordae tendineae
- Fossa ovalis
- Interatrial septum
- Interventricular septum
- Left atrioventricular valve or bicuspid valve or mitral valve
- Left atrium
- Left ventricle
- Moderator band
- Opening of coronary sinus
- Papillary muscle
- Pectinate muscle
- Pulmonary valve or pulmonary semilunar valve
- Right atrioventricular valve or tricuspid valve
- Right atrium
- Right ventricle
